

AMMO BOX.

A stylish storage solution specifically designed for smaller training tools.

Training areas get very messy, very quickly, when there isn't a proper place to store small training equipment like boxing gloves, power bands and so on. The Ammo Box solves the problem, with enough capacity for clubs with a wide range of functional training equipment.

TECHNICAL INFORMATION.

Weight:

42kg (92lbs) when empty.
Max weight when loaded is 150kg (330lbs).

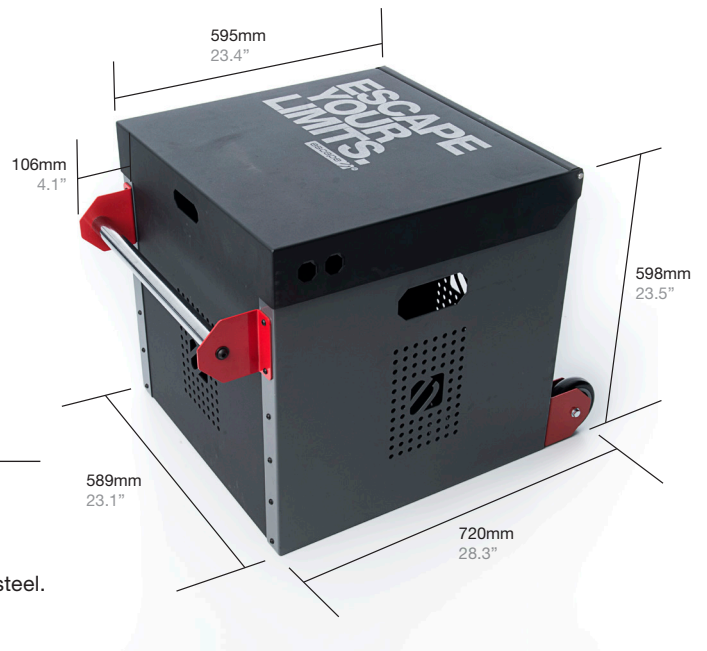

Colours:

Cool grey with jet black lid, red gloss handle and wheel brackets, and satin chrome handle.

Materials:

95% carbon steel.
5% rubber.

Country of origin: Taiwan.

CLUB BENEFITS.

- Strong, durable and easy to clean.
- Flat pack design saves on carriage costs.
- Lockable (padlock not included).

PT BENEFITS.

- Can be used as an anchor point for straps, bands or rip trainers.
- Portable access to equipment wherever it is needed.
- Small pieces of equipment are stored in an organised fashion and easy to access.

USER BENEFITS.

- Soft close lid.
- Ventilation holes to allow air circulation.
- Side hand holds for comfort during transportation.

Features rear wheels and a heavy duty handle so that it can be moved easily around the gym.

Extend the lifespan of your functional tools by storing them correctly.

Perfect storage for smaller items – never lose boxing gloves and pads, resistance tubes or foam rollers.

Ensure the security of all equipment in the lockable Ammo Box.

(Padlock not included.)

Extend your storage solution – connect the Ammo Box to the Octagon Hub Wall for a truly versatile storage solution.

ADD DIVIDERS FOR EVEN MORE STORAGE PERFORMANCE.

The optional dividers get the most from the Ammo Box, breaking the 216-litre capacity down into four smaller sections. This makes equipment even easier to access, and enables you to create compartments for each type of equipment: perfect for when running a circuit of multiple training styles.
